Gift Concert Notice.
The publication of the Income List in our city papers is interfering very much with our arrangements for distributing the remainder of the Tickets. Ticket holders must not be unreasonable. All the gifts will be distributed as soon as possible. We must, however, get a correct list published first, to which we can refer as official. That can't be done sooner than Wednesday or Thursday. All numbers appearing in the Drawing List will draw gifts from one dollar upwards. Number not appearing in the list, draw nominal or smaller gifts. Tickets drawing principal gifts should be mailed to us immediately. Smaller gifts will be distributed indiscriminately. Our office is closed for the present to prevent confusion arising from the rush of ticket holders. All must have patience and allow us sufficient time to have our Drawing List published correctly. The Union County Executive Committee and Federal Officers—Letter from the United States District Attorney.

PITTSBURGH, August 2, 1866.

JOHN W. RIDDELL, Esq., Chairman Union Republican Executive Committee,

SIR: I have received a circular letter under date of August 1st instant, communicating a copy of resolutions unanimously adopted by the Committee of which you are chairman, and requesting an early reply to the inquiry propounded in the resolutions. The latter are as follows:

Resolved, By the Union Republican Committee of Allegheny County, that we call upon all and each of our Federal officeholders of the 23d and 24th Districts, together with all others who may be willing to co-operate with this committee in promoting, by their influence and votes, the election of Major General W. W. Geary and the nominees of the Union Republican Congressional and County Tickets.

Resolved, That a copy of the above addressed to the Chairman of this Committee, be requested within ten days from this date."

I am not aware that the opinions of an individual in office, are entitled to any more consideration, than those of any other person of equal character, information and judgment. Waiving, however, any implication of doubtful fidelity to the Union Republican Party, which may or might be drawn from the fact and form of the scrutiny proposed, I am willing to assume that the inquiry is made in good faith, and therefore entitled to a prompt and candid response. I answer that I am in favor of the election of Major General W. W. Geary, to the office of Governor of this State, at the approaching election; that I shall vote for, and promote his election to the utmost of my ability, my power, and I am entirely willing to co-operate with your Committee and other proper agencies which may be employed to that interest, and to secure that result.

I shall, also, give a like cordial support to the congressional and county tickets of the Union Republican party in this county.

The above, it is hoped, will leave no doubt, if any existed, as to my political position in the impending campaign, and be satisfactory as an answer to the inquiry of the Committee.

I have confidence, unabated confidence in the Republican party, and in the ability of my honored to the salvation of the country, under Providence, in that great and glorious organization. I have not for one moment forgotten what it saved the country in the hour of her mortal peril. That without the loyal and patriotic efforts and services of the men, soldiers and citizens, who supported President Lincoln during the rebellion, and carried the Presidential election of 1864, under the weight of conscriptions and heavy taxes, and when a wail of woe went up from almost every household, against the sinister efforts of those who were encircled by the very arm of power, and every necessary repressive measure as unconstitutional and tyrannical, we would not now have any Government—any country. I continue to laud this patriotic organization, and will be the last to desert it.

Your Committee will render a substantial service to the country by counseling and practising moderation, by the exhibition of an abatement of an unreasonably rancorous spirit, and employing your official functions and personal influence in promoting peace and harmony in the ranks of the party. Yours, respectfully,

H. D. FOSTER McKENAHAN,
United States District Attorney.

Effect of Cholera Reports on Business in New York.

The New York *Commercial Advertiser* complains that some of the reports of that city have diminished the confidence of the country in its shores, and by this means conveyed to persons out of the city, an idea that a general epidemic is raging there. These statements, it is claimed, have in turn, been copied by journals of other cities, and thus a panic has been spread over the Philadelphia and other cities. The *Commercial* says: "There has been a large exodus from the city during the Summer. Reports from the more celebrated and popular watering places, delicate in unusual dullness, and shows that the Summer wanderers have scattered to remote and unfrequented places, instead of herding together in the great headquarters of fashion, which has driven these people away from the great metropolis, except a few, altogether there from the cholera. Our Brooklyn exchanges speaks of the epidemic as having made its appearance in several places in the city, and especially in one locality, where several deaths occurred last week. The term is that cholera may be, a mild form of it, exists in New York and vicinity to a larger degree than the authorities and business men of that city are willing to admit.

Business in Boston.

While New York merchants are complaining generally as to the dullness of business in that city, the Boston wholesale houses of all sorts are reaping a golden harvest. The *Post*, of the latter ty, says that business is just now exceedingly ively, in fact, more so in some branches of ade, than has been seen for several years. uthern and Western merchants are making ry heavy purchases there. The aggregate les of one day, in boots and shoes, is reported $1,500,000. The clothing houses are equally tive, more so than in some other dements of trade, and the indiness are not deceitful, wholesale jobs in the east, will be unusually busy traffic for the next season. This trade opens th the first week in August, Philadelphia ershants report business to be brisk there, d several of our heavy houses in Pittsburgh, pecially those who have an account with nthern buyers, are already doing an exceedgly active trade. In the same connection, it noted that the shipments of boots and shoes the manufacturers of Worcester, has been precedentedly large during Wednesday and urday of this week, amounting to 5,322 cases. ersuit will continue for several days, as there ve been large stocks accumulated by manufacturers here for a few weeks past. Nearly 10,cases will probably be forwarded this week.

Monaghan and the Philadelphia Convention.

Monaghan has written a letter to the mocratic Central Committee, of the Third gressional District of Ohio, accepting the ointment as one of the delegates to the Philaphia Convention from that district. He ks that any Democrat, who consents to sit that Convention, offers up a high and holy rifice to magnanimity and patriotism, because the invitation for Democrats to meet ere is friendly council in the Philadelphia Conntion comes from men who formerly taught, their policy, the dispersal, by armed mobs, the suppression of newspapers, proscription the social, religious and business relations life, calumnies, persecutions, arrests, imprisonments, exile and death. An invitation coming from such a quarter, he thinks, should ceived with suspicion and distrust by every patriotism of such Democrats who bury the for the good of their country, and repair to Philadelphia. He strongly endorses dent Johnston's policy as a cure, but wise, ling, exalted policy of magnanimity—the policy of the christian and statesman. The policy of Congress he sums in two words Force only, which he says is exhausted"—the unwise, narrow irritaperse destroying policy of the Jacobin and the pirate. The life of the Republic he says, hangs on the issue of these two, between which the country should now choose. He concludes his letter of acceptance as follows: do not unanswer the letters of the conspirators ous and evil-disposed persons of the Republican party, those who hate the person and life of the President, but those misled by designing others and ignorant of the purposes they pretend to set up less for admiration in Philadelphia Convention, as against our ment—in fact all men, except traitors. The combined indecency, presumption, folly of this pretense, together with the most treachery and hypocrisy of the men which prompt it, render it too contemptible for further notice. If the Philadelphia Convention is to apply any other test than the present status and principles of the delegates to the one great question of the day, as set in the call—above all, if it is to be permitted to an enquisition, on either side, into the record and antecedents of the men who present themselves with the ordinary credentials of membership, then appropriately it is to be assembled in the temple of Discord. I better it had not assembled at all. Any one ecede of those, of either party, who shall ake at those fountains of bitterness, be the which will follow.

Freedmen's Bureau Investigation.

Sailors Not Included in Bounty Bill.

Agriculture in the South.

The Freedmen Working Faithfully.

Great Activity in the Patent Office.

Special Despatch of Pittsburgh Commercial.

WASHINGTON, August 6, 1866.

The Freedmen's Bureau.

Generals Steedman and Fullerton are both here, and have made their last reports as a special Commission to investigate the condition of the Freedmen's Bureau. The general tenor of their late investigations in the Southwest has been published.

Chief of Staff.

It is stated that Brig. Gen. Nichols has been appointed by Lieut. Gen. Sherman his Chief of Staff. Gen. Nichols has been on duty in the War Department as Assistant Adjutant General for several years.

The County Law.

Every day develops the bungling manner in which the bill was drawn in the last hours of the session to equalize the bounties of soldiers. It turns out that the sailors have been left out, though such was not the understanding when the bill was passed. A number of sailors' claims have been filed with the Fourth Auditor, but the claimants are being notified that they will receive no benefits from the new law.

Free Labor South.

The Assistant Commissioner of Freedmen's Affairs reports that the negro is in much greater area of land under cultivation this year than there was at the beginning of the rebellion, and the quantity of land planted in cotton is much greater than the usual crops put in in Tennessee. As a general rule, the negro people are faithfully performing their contracts, though in some few of the counties they are disposed to wander about from one employer to another, and break their engagements lightly, and the people are making unfavorable contrasts with the freedmen, treat them very well and evince a disposition to do them justice. There are some exceptions to this rule, but even these shows a marked improvement, when compared with the condition of affairs one year ago.

Patents.

Extraordinary activity is now prevailing in the Patent Office. The number of applications for new patents, and extensions of old, are multiplying rapidly. In the week ending August 4th, the Commissioner will issue two hundred and sixty new patents, the largest

Commission Signed.

The President has signed and duly forwarded the commission of Col. Langdon as Assessor of the Second Ohio District.

General Sloeum

Was among the numerous persons who obtained interviews with the President to-day.

Commissioned Officers' Pay.

The State Department has just published a law providing that in every case in which a commissioned officer actually entered on duty and by reason of being killed in battle, captured by the enemy, or other cause beyond his control, and without fault or neglect of his own, was not mustered within a period of not less than thirty days, the Pay Department shall allow to such officer or his heirs, or personal representatives of his rank from the date on which the officer actually entered on such duty, deducting from the amount paid all pay actually received by such officer for such period.

Bounties.

The President has appointed Joshua A. Hunter, Collector of Internal Revenue for the Twelfth Ohio District. Several clerks were removed from the Treasury department.

Coinsolence Money.

Congressman Harris, of West Virginia, has just returned the extra $2,000 salary to the consolence fund of the Treasury.

WASHINGTON, August 6,

TELEGRAPH SUP.

Information has been received here that at a recent celebration of the Mexican Masons in the City of Mexico a toast was offered and a great ovation given for the re-establishment of the Republic, and the complete success of Mother Phrygian Liberty.

SPANISH QUARANTINE.

Advices at the State Department represent that vessels from the United States are subjected to a long quarantine at Spanish ports, including the Island of Tenerife.

NEW NATIONAL BANK.

A certificate of authority has been issued to the First National Bank of Danville, Va., to commence business on a capital of $100,000. No circulation is allowed, unless some further provision is made by Congress.

STEAMBOAT EXPLOSION.

Steamer Gen. Lytle Blown Up.

Fifteen to Eighteen Persons Killed.

The Boat a Total Wreck.

MADISON, IND., August 6.—The steamer Gen. Lytle blew up near Bethlehem this evening. Passengers say she was racing with the St. Charles when the explosion took place. Both boats were close together. The St. Charles brought the wounded and dead to this city. Not more than fifteen to eighteen persons are lost. The officers of the St. Charles deny the charge that the boats were racing. The St. Charles rescdered every assistance possible. The Lytle is a total wreck.

FROM FORTRESS MONROE.

Fire in Norfolk, Virginia—Accidental Explosion of a Shell.

FORTRESS MONROE, August 4.—A fire broke out at midnight in Norfolk, in a building at the corner of William and Talbot streets, and before it could be put out a quantity of shells in the Norfolk Light Artillery Blues, destroying both buildings.

While a party of negroes were in the act of removing one of the loaded shell on the beach near this place the shell exploded, and by the concussion it was suddenly exploded and seriously wounded two of them.

FROM PROVIDENCE, R. I.

Woolen Mill Burned—Several Persons Injured.

PROVIDENCE, R. I., August 6.—Edward S. Harris's woolen mill, number 1 in Woonsocket, took fire in the picking room this morning, and burned till eleven, and so rapid was the spread of the flames that the operatives were compelled to save themselves by jumping from the windows, and many were hurt. The walls of the mill were not much damaged. The loss will be pretty heavy.

FROM HAYTI.

Another Rebellion Suppressed.

BOSTON, August 6.—A mercantile letter, dated Puerto Plata, July 26, states that a formidable insurrection at Azoniz, has been entirely suppressed by the Government, and the town given up to the victorious authorities. The troops of President Geffrard marched from St. Marle to Azoniz, during which time they surrounded, and being in confinement, two of the Haytian gunboats, compelled the insurgents to surrender. A Government proclamation was extended to all except three members of the Provisional Government.

STATE ITEMS.

A railroad meeting was held in Warren, on the 25th ult., to consider the feasibility of building a railroad from Warren to Buffalo, to connect with the central roads via Forest and Warren. A committee was appointed who made a report recommending that immediate steps be taken to organize a company to build the road to the State line, and to secure the co-operation of the Pittsburgh and business men at Buffalo to connect them with a road to the boundary of the State.

Tom Kline, late proprietor of the Fashions, Petroleum Centre, was arrested by the Sheriff of Erie county, on Thursday last, for biting off a man's ear.

The Farmers' Railroad from Oil City to Petroleum Center is rapidly approaching completion. By the first of September, it is thought, trains will run its entire length.

The State Baptist Convention will hold its first session in the Second Church in Erie, Rev. Mr. Bainbridge, pastor, the third week in October. About four hundred and nine clergymen will be present. The object of the Convention being to form a representative body which shall from the same reasons to all the Baptists in the State, as such association does to its own members.

The Meadville *Republican* of Saturday says: Mr. Charles Bouton, of the firm of Carnes & Bouton, died suddenly yesterday afternoon from the effects of a dose of chloroform. He had been unwell for some time past, and yesterday while down street, he bought a dreadful dose of morphine. He was asked in the store if he understood the use of the drug, and replied that he did. He went home and lay down, telling his wife to awake him at supper time. She went to call him, at that time, but he was dead. Dr. Ellis was called in, but Mr. Bouton was beyond the reach of friendly aid. The morphine bottle was found on a table near him, with the contents partially exhausted.

THE CHOLERA.

No Abatement in New York.

Disease Among Troops on Board the San Salvador.

One-fourth of the Command Die.

Twenty-four Deaths in Cincinnati on Sunday.

The Epidemic Raging in New Orleans.

NEW YORK, August 6.—The cholera in this city had not seemingly abated for the twenty-four hours subsequent to seven o'clock A. M. yesterday. Twenty-nine official cases and nine deaths were, during that period, reported, in Brooklyn great difficulty was experienced in obtaining correct returns on Sunday, owing to the alleged inhumanity on the part of the sanitary officials. Three deaths of previously reported cases had occurred on Governor's Island. On the other islands no additional cases were mentioned.

Concerning the cholera among the troops on the steamer San Salvador, it is stated that the steamer sailed from this port with four hundred and seventy recruits for the Seventh United States Infantry, on duty in Florida. They were all recruited in this State. The deaths on the 29th ult. amounted to thirty-four. Just before command on that date there were nineteen new cases, with eighty-six cases in the hospital. The disease appears since to have been gotten under control, for five deaths only occurred, and six new cases appeared from the 29th ult. to the 1st inst., and the vessel was reported to be due at Savannah within a few days after the passengers were landed.

NEW YORK, August 6—6 P. M.—Twenty cases and four deaths by cholera in Brooklyn, and eight cases and one death in Brooklyn, were reported up to noon to-day.

CINCINNATI, August 6.—At a special meeting of the Board of Health in this city, on Saturday, the health officer reported that there had been thirty deaths in July, among which were twelve from Asiatic cholera. The first case occurred July 11th. He also reported forty cases of cholera are reported to the Board of Health since Saturday, mostly persons from the South. Several deaths have occurred. The sanitary condition of the city is unusually good. No serious apprehension is felt of the disease becoming epidemic.

THE OTHER JOHNSON.

The Philadelphia Collectorship—Ex-Governor Johnston's Commission Received by Somebody, who Declines to Receive It—A Manly Letter—Colonel Thomas Will Contest the Appointment.

The Philadelphia *Press* of Sunday says: The following letter from William F. Johnson, a respectable citizen of Philadelphia, addressed to the President of the United States, explains itself. It will be seen that Mr. Johnson returns Rowlegas a communication from the United States Commissioner of Customs, stating that the President had appointed him to the office of Collector of Internal Revenue for this district of Philadelphia, and enclosing official bonds in blank to be filled up with the names of his sureties. It will also be seen that he declines this honor in a letter as remarkable for its disinterestedness as for its patriotic truths. The refusal of Mr. Johnson to accept the office ostensibly supposed to have been offered to a person of his name, will save Collector Thomas the trouble of vacating the position he has filled with so much credit. Whether the President will now tender the office to Ex-Governor F. Johnson who is willing to bear its official burdens and to undertake a contest with the present incumbent, who, we learn, is resolved to contest the matter to the last, should the nomination be complete, who has not been confirmed by the Senate, remains to be seen. The original of the subjoined letter was mailed yesterday by the Philadelphia Johnson to his Washington namesake:

PHILADELPHIA, August 4, 1866.

His Excellency Andt. Johnson, President of the United States, Washington, D. C.

SIR: I am in receipt of a communication from the Commissioner of Customs, the Hon. Mr. Rowlegas, stating that you had been pleased to appoint me to the office of Collector of the Customs for the district of Philadelphia, and inclosing official bonds in blank.

I herewith return the same, declining the proffered honor, believing that in accepting the office I should be compelled to carry out a line of policy of reconstruction, to the sacrifice of long cherished principles. The honorable gentleman now the incumbent of said office, distinguished alike for his patriotic devotion to the country in the hour of its peril, and for his *firmness and fidelity* to the cause of the Union since the close of the rebellion, will have a tendency to hurl against the country the scenes of turmoil and bloodshed from which we have just emerged. Those scenes must not be repeated; with your consent, under your auspices or sanction, never.

I feel, sir, that your action in removing good, true and loyal citizens from office (in which they have been tried and found faithful) to put in the gratification of the high constitutional law of the land; denying the right of peaceful secession, but claiming the right to bring into the rebel population of the South and the North all they have ever claimed as belligerent, will have a tendency to hurl against you the country the scenes of turmoil and bloodshed from which we have just emerged. Those scenes must not be repeated; with your consent, under your auspices or sanction, never.

Trusting our citizens shall not be further annoyed by the meddling, unscrupulous politicians who insist upon my appointment to a position for which I am not fitted and neither can nor will not feel myself competent to fulfil the duties of, I remain, respectfully,

Your obedient servant,

W. F. JOHNSON.

LATE NEWS ITEMS.

The Commissary General has decided that commutation of rations for soldiers while confined in rebel prisons, shall be allowed only to them and their heirs.

A large and advantageous sale of captured prize property belonging to the Navy Department, took place in that city on the Government Navy Yard, netting a handsome revenue to the Government. One item, scrap iron, sold at from one and five cents per pound. Over one-fourth cents per pound, and several hundred tons are, hogsheads of confederate Virginia leaf tobacco will be sold by Colonel Loomis, Treasury Agent, at Richmond, the last week of the present month.

The *Herald* says: Our correspondent recently with General Steedman, in his investigation of the Freedmen's Bureau in the South, writes from New Orleans concerning the evil practices, No records were found in any case, and when upon so they were conveniently made away with upon the first intimation of the nature of charges of appropriating to private use of public money is duly proved, and the indiscriminate of negroes by the officers is generally regarded. With Louisiana the investigation closes, and a full report will doubtless be made public in a few days.

The *Tribune* says: Much curiosity to know what law the President has removed the elected Governor of Louisiana and appointed the Attorney General of Louisiana, following his removal of the United States forces. The party which pretends to decide the centralization of power may find the answer in the Constitution, by which the President orders the restoration of State Government, and after restored, destroy it by military legislation.

Senator Sumner characterizes the Philadelphia Convention a gathering of intelligent, wealthy gentlemen, without a constituency.

General Butler made a speech at Lynn, on Saturday, in favor of impartial suffrage. He declared renewed fidelity to the colored race, and said General Dix's conversion to the Minister-ship at that place, was the result of the late President's shameful apostasy, predicted a great struggle coming, and he stood ready with all his accustomed energy and ability.

The *Tribune's* Washington special says: Gen. Terry forwards forty-five reports, each from a superintendent of a district in Virginia, which are being carefully examined by General Sheridan's staff. Nineteen for Geary and fourteen for Wells, and the rest are blanks. Wells is a terrible nut down. Not satisfied, however, he proceed to canvass the passengers in the cars with the following result: Geary, 1; Wells, 3; three for Geary, and thirteen for Clymer! After dinner he also visited the cars, and found in all two or three dressed in blue and said, "You look like soldiers, how do you intend to vote?" "Do you think," said he of Union, "that after having fought against the rebels for four years, we are going to vote for Wells? We go for John W. Geary." The Clymerite ceased to climb.

SANTA ANNA'S ESTATES CONFISCATED.

Santa Anna is likely to pay dearly for his pronunciamento in favor of the Liberals if Maximilian succeeds in establishing the Empire on a permanent footing. A decree has been issued confiscating his estates, appointing a receiver to take an inventory of the property within the limits of the Empire, keep an account of the revenue derived therefrom, and hand over the same to the Government. All the contracts of Santa Anna relating to this property are annulled. This is the Emperor's response to the ex-President's declaration of war, and it must be confessed that it is severe. It is said to be, however, it may turn out in the end. The loss of this property will not seriously affect Santa Anna, for he has realized at least a million from the rich of the Imperial army, obtained over two millions of dollars from the Mexican Government, and has invested the most of it in foreign securities. He has also taken the most certain means to provide a disturbance and give it importance. He hoped that he would be invincible gentlemen on the Government side would take warning, and feel that if they should oppose him they would be overwhelmed, the people would join their own in the pairings of his constitution as they did the pairings of the party of the Emperor.

A letter from the city of Mexico, of the 21st ult., says that Santa Anna has left Orizaba, and is now in the city of Puebla, which the people of the Territory hold in common with the people of the States.

Of the New York delegation to the "Union" State Convention at Saratoga, on the 29th inst., twenty-five are avowed Democrats—several of them having represented the city in the Legislature during purely Democratic months.

The Democrats of the Sixteenth District, comprising the counties of Belmont, Guernsey, Harrison, Noble and Tuscarawas, met Thursday, at Cambridge, and on the sixty-first ballot, nominated Hon. Samuel Galloway, of Wheeling, for Congress. William Lawrence, of Guernsey, and J. T. Earle, of Belmont, were appointed delegates to the Philadelphia Convention.

INDIANA.

John M. Lord, of Indianapolis, has been nominated by the Democracy for Congress in the Sixth Congressional District.

There was quite a spirited contest for the Congressional nomination in the Fort Wayne District, on the 26th ult., in the Republican Convention. The present member, Mr. Joseph K. Edgerton, was defeated by Hon. Daniel Mc-Donald, who was beaten by Colonel Wm. Williams, of Kosciusko county.

At a meeting of the Union State Central Committee, held in Indianapolis, on Friday, measures were adopted for securing a more thorough organization of the various counties, and it is expected that there will be a Union ticket voted in every Congressional District, in the fall, on the first Monday in October. Eminent speakers from abroad will be engaged to address the people at these meetings, and address the people.

MISCELLANEOUS.

Hon. A. W. Hubbard, a member of Congress from the Sixth Iowa District, was renominated Friday, notwithstanding his previous declension.

Say United States Senators have been appointed delegates to the Philadelphia Convention—Dixon, of Connecticut, Norton, of Minnesota, Doolittle, of Wisconsin, Guthrie and Garret Davis, of Kentucky, Saulsbury, of Delaware, and Hendricks, of Indiana.

The Colorado Republican Territorial Convention was held at Denver on the 26th ult. It was fully attended, and the proceedings were entirely harmonious. George S. Chilcot was nominated a delegate to Congress on the second ballot, receiving a majority over all others. On the 29th, Holloway H. A series of resolutions were passed. They are opposed to any Congressional legislation looking to the removal from the Legislature of the Territory by Unionists of any disloyal men, and declaring that the Territory in

THE PRESIDENTIAL GUILLOTINE.

The President could not have made a better selection than Allegheny county for setting up his guillotine. This county gave the LINCOLN and JOHNSON electoral ticket something like ten thousand majority. It was the Banner county of the whole country. The people voted from conviction then, and they will keep right on doing so. The offices had as little to do with the vote then as they will hereafter—only the use the President, madly advised by Senator COWAN, is undertaking to make of them, will bring the Union party up as one man to intensify the rebuke the President will receive at the coming election.

If anything was lacking to arouse the energies of the Union men of Allegheny county—if the course of the President, and the snape public affairs are wearing, were not enough to do it, and insure in Allegheny one of those old-fashioned majorities, this crusade on men for opinion sake will supply all that is wanting. We say crusade on men for opinion sake, for it is nothing else. The men the President is turning out are all sound Union men,—all of them labored faithfully, and contributed not a little to produce the grand majority for ANDREW JOHNSON, and the cause he has betrayed and is seeking to destroy. Not all the offices within his gift would suffice to win them, or a single man here over to him, beyond those among whom, at Mr. COWAN'S bidding, he is parceling them out. We tell the President and the recreant Senator that when they have counted on their fingers the number of offices thus filled, they have ascertained the exact number of recruits they have obtained—just that and no more.

Those whom the President, to gratify Senator COWAN, has turned out of office, without exception—are without blemish—no reason has been assigned, for none could be, for removing them, only they would not betray their party and their principles to support the President and the Senator. They were unpurchasable, and for that they were removed. If, when the people come to express themselves, President JOHNSON and Senator COWAN are satisfied, we know of not one that will complain.

THE PENALTY OF MUNICIPAL FOLLY.

Portland has been scourged as few cities ever were; and, as we are assured on good authority, the visitation, fearful as it was, came upon her as the necessary result of municipal indifference to an inadequate supply of water. Commenting on this the Boston *Commercial* says:

"There can be no doubt that our Portland neighbors, as well as their underwriters, might have been spared this terrible visitation, which has caused so much suffering and called forth noble charities, if their local authorities had heeded the advice of some of the citizens, and moved in time to bring a supply of water which was so much needed both for their health and protection from fire. We regret as much as any one this criminal, and, in view of the consequences, it must be a never ending source of regret and remorse to those who are responsible for it.

Cities, like individuals, must pay the penalty of their shortcomings. Portland paid the penalty of not providing against conflagration. Other cities, while they may not offend in this particular, may in some other; and, sooner or later they will have to pay the penalty. The city which persistently disregards sanitary laws, by failing to provide a proper system of sewerage, should expect to be, as it certainly some time or other will be, terribly scourged. And the city which supplies to the citizens impure water—water drawn from a source that is at the same time the receptacle of the city's drainage and washings—therefore unfit for domestic purposes—that city invites disease and pestilence, and the invitation will be fearfully answered. This is something for municipal authorities—those of Pittsburgh among the rest—to think of.

A VENERABLE MAN.

We were honored yesterday with a call from the venerable WILLIAM CONNELY, aged ninety years. He is a resident of Franklin, Venango county, and has been summoned to Pittsburgh to be a juror at the present session of the United States Court. He is a remarkable man. Retaining to an extraordinary degree his mental and physical vigor, he would be taken for a man of a good many less years than he has seen. He was in Pittsburgh seventy-two years ago; and, as a resident of Philadelphia in his early youth, he retains a distinct recollection of WASHINGTON, FRANKLIN and many worthies of their time. He has held a number of positions of public trust, among them a seat in the Legislature of the State. A Democrat "when Democracy meant something to be proud of," as he now says, he is a Republican now, as he always has and ever intends to be. He is among the few men living who, of his age, are capable of transacting business, public and private, having through his long life, as the result of good habits, had almost unbroken health.

We felt complimented when he told us that he was a daily reader of the COMMERCIAL, and gave it his warm inforsement.

CHARTIERS VALLEY RAILROAD.

A person who occasionally comes into Pittsburgh by any one of the morning accommodation trains, is surprised to notice the crowd of passengers that crowd into it at all the stations. These accommodation trainsrun our five or six roads are always packed with people on their arrival in the morning and on their departure in the evening. This shows how extensive is the intercourse daily between the city and the surrounding country. The business that is so vastly local supports these lines and affords not only convenience but great pecuniary advantage to the city.

Yet there is a densely peopled strip of country, not second to any of that which surrounds Pittsburgh in productive wealth, that has no facility except a rough and hilly road, for communication with this market. It is the strip along Chartiers creek between Pittsburgh and Washington by way of Canonsburg. A railroad in a half finished condition has long meandered through this strip, for several years. Pittsburgh interests would be immensely promoted by its completion, if Pittsburgh enterprise would enlist itself in the effort. The passenger business would support the lines, and the wood trade would afford a cent per cent. profit to the road, while the city would derive a permanent and large benefit from the increase of trade. A railroad from Mansfield to Washington or even to Canonsburg, for local purposes, would be a great advantage to Pittsburgh.

IS REBELLION CRUSHED?

The radical and rebellious press of the South, representing the elements of the same character among the politicians, grows more and more rampant, in proportion to the aid and comfort that is received by them from other quarters. The following from the Richmond *Enquirer* is about a fair sample of the spirit and utterances of that paper and its coadjutors. We give its own italics:

"The revolutionary violence of the radicals will be resisted *to blood*, if need be; and to that will be resisted, the struggle seems likely to proceed, unless one party or the other shall triumph at the polls, not simply by a majority, but by an overwhelming majority. No equivocal or even *overwhelming* majority will avail to annihilate both, to half victory will avail to annihilate the party; only such a triumph as shall cover all the party, only such a triumph as shall crush, and overwhelm the hopes of the defeated."

It strikes us that this was their style of speech before the election of Mr. LINCOLN in 1860. Something of the same strain of electioneering was adopted, when it was said a hundred times over, that the election of Mr. LINCOLN would be a sufficient cause for breaking up the Union, or for attempting it by force of arms.

It seems, too, that they have raised the terms on which peace is to be maintained, by making a new and extraordinary rule for the determining of elections. Majorities will not answer their modest purposes, but *overwhelming* majorities are demanded. Who is to be the judge whether majorities are overwhelming or not. But the new rule of elections proposed by these men, elated and intoxicated with their new born hopes, must not only be overwhelming, but must "cover all cavils" of the defeated.

This is the sort of temper, and those the views that are going into the Philadelphia Convention from the States lately in rebellion. It is easy to see what kind of reconstruction policy this spirit will dictate, and it is equally plain what would be the effects of such a policy on the peace, liberty and prosperity of the country. The babbling madness of the *Enquirer* and its class let out terrible secrets of the brewing policy.

THE CALL AND THE COMERS.

As the time for the meeting of the Philadelphia Convention draws near, the "Call" in which it originated is gradually sinking out of view. The eagerness with which the occasion is seized by outside and uninvited parties makes them indifferent to the conditions of the call, and those that come trooping to the meeting without invitation bid fair to outnumber and trample down both the callers and the called. What the consequences will be, when the mixed medley gets together, remains to be seen. Will the craft intended for a select company carry all the struggling, half-drowned crowd that are scrambling over its sides? Or will the craft and the scramblers and the callers sink together?

THE OATS CROP.—In May, the fields sown with oats presented a most unpromising appearance. Owing to unpropitious weather they were backward as to time of sowing, and for the same cause the young blades were thin and pale. But, two months' time has changed the condition of this crop in a degree seldom seen by any farmer. A very heavy crop is now on the ground, and the harvesters are busy in getting it secured, with the weather entirely in their favor. The yield per acre is extraordinary, and an unusually large surface of land has been covered with this crop. Oats ought to be cheap the coming winter, and horses should be fat and sleek as city aldermen.

GENERAL INTELLIGENCE.

St. Louis is to have a swimming bath for the benefit of her citizens.

Henry Fazel, the St. Louis youth who took poison a few days ago, because his sweetheart's father objected to his marrying her, has been brought up for examination on a charge of having indticed the girl to commit suicide. It will be remembered that she died by poison administered by herself, on account of her father's opposition.

The receipts at Buffalo for the past month foot up: 125,015 bbls. flour, 952,015 bushels wheat, 4,770,715 bushels corn, 2,210,583 bushels oats, 174,092 bushels rye, and 82,382 bushels barley.

Cleveland has foundries and forges requiring an aggregate capital of $3,000,000. The iron used is obtained from Lake Superior.

The Indianapolis Rolling Mill Company, for the year ending July 1, 1866, re-rolled 14,326 tons of railroad iron, on which the revenue tax amounted to $34,862 40.

The sportsmen of St. Louis have inaugurated measures to extend the game laws, on account of the arrival of several thousand prairie chickens from Illinois, where the law opened the market to dealers.

A few nights ago a colored man and his wife named Gould, residing in Chicago, got into a quarrel, and the latter for revenge set fire to the dwelling and succeeded in burning it down. After the fire the body of her infant was found burnt to a crisp.

The monument which Barnum is building in the cemetery at Fairfield, Connecticut, will weigh about sixty-five tons, and a wag suggests that when the great showman gets under it, he will be permanently located.

St Paul is filled with emigrants from Northern Europe, who are fitting themselves out with agricultural implements, household furniture, etc., preparatory to settling on the frontier. They are thrifty looking people, and will doubtless make good citizens.

The geographical and agricultural survey of Nebraska by the State Legislature, which was interrupted by the war, is to be resumed in the spring of 1867.

Of all European nations France shows the slowest rate of increase in population. The 27,000,000 of 1801 had only increased by 9,000,000 in 65.

Professor Woods, the botanist, who has collected and classified about 1,500 varieties of plants in the State of California, is now in Oregon making a collection. He designs publishing a work descriptive of the trees, shrubs and plants of that State.

The number of steamers running between New York city and European ports, has largely increased within a few years, and new companies are irregularly being formed. The number of trips now made is at the rate of 1,100 per year.

A prominent underwriter states that the losses by fire during 1864 amounted to about $20,000,000; in 1865, about $23,000,000; and in 1866, thus far, $40,000,000—which amounts are exclusive of losses at fires not reaching $5,000.

The New York *Citizen* walks into the corrupt city government with a broom, and has never before been so thoroughly called, and which is making itself felt. It says: "We are cried out of the gutters; we are dominated by the sewers of this metropolis. Our local representatives are for the most part a scum—a loathsome, degraded and brutalized population, not fit to be a governing base, and not less dishonest than shameless—such as no decent citizen would willingly admit to the familiarity of his stables."

The New York Board of Health is still quarreling over the question whether Dunnington, physician to the Board, is entitled to the hospitals. The papers are filled with sensational articles and cartoon maps, which have the effect to make most of their readers feel very unwell at sight of them.

The St. Louis *Democrat* states that the wharfs of the city are to be extended north and south along the whole river front, and that probably not a distant day St. Louis will have a continuous wharf seven miles in extent. Various barrier improvements also are about to be made there.

Gun cotton is now made into ropes for storage, and Keyl trader writer. When an order is received at the manufactory in New York it has been found necessary to fill by making the ropes with many air channels through the mass, the cotton explodes almost instantaneously, and is as violent in action as the strongest nitromuider.

PERSONAL.

—Vallandigham is the idol of the Kentucky rebels, and he was enthusiastically received by them at Frankfort and Louisville last week. Pendleton's connection with McClellan, it is said, militates against his popularity with the ex-Confederates, and he did not venture among them.

—Charles Le Villiers has been arrested in Baltimore on a charge—which he admitted—of passing a worthless check. He is the individual of whom Colonel Ellsworth learned the famous Zouave drill, and was at one time Colonel of the Eleventh Ohio Infantry.

—Capt. Bart. G. Lasper, of Pittsburgh, a well known steamboatman, has arrived in Cincinnati with samples of cotton from his plantations in one of the Gulf States.

—A citizen of Covington, Kentucky, named A. J. Wilpps, was arraigned before the Freedmen's Bureau, in Louisville, Friday, upon the charge of whipping a colored girl named Eliza, aged about fourteen, with a cowhide, upon the bare back, injuring her very much. According to the testimony of the girl, which was examined, he continued the punishment for fifteen minutes. The Court fined him fifty dollars, which he indignantly refused to pay. Saturday, Captain Graham, the agent of the Bureau, sent him under guard to the Jail, at Louisville.

—Commodore Spaulding and family, and Rt. Ccchran, the Washington Banker, are at Berkley Springs, West Virginia.

—Corry O'Lannis proposes to take down the needle gun with a sewing machine battery.

Edwin Booth is enjoying the sea-breezes and so forth at Newport. He is soon to play in Boston.

—It is said that Napoleon can scarcely conceal his jealousy at the success of Prussia and especially of the growing influence in Germany. Several expressions strongly indicative of this feeling are quoted from him at escort.

—August Belmont, the New York banker, reports his income for 1865 at $177,461.

—John Morrissey, the ex-pugilist, reports his income for last year at $81,100.

—That smashing scarlet four-in-hand female has fled from Saratoga. The Grand Jury indicted her.

—The Empress Eugenie is said to have as great a faith in her star as the first Emperor had in his. She is extremely superstitious, and wears an amulet as a preventative against "catching diseases."

—Bishop Kingsley recently appointed a colored preacher Presiding Elder in the Missouri and Arkansas conference. We believe this is the first appointment of the kind ever made in the history of the Methodist Church.

—A Saratoga correspondent says: "Madame Le Vert, who is a short, stout, and not at all the brilliant looking lady she is represented to be was at the Clarendon ball, in a white tarlatan dress, trimmed with black lace flounces and black lace ornaments—silver chains upon her hair, and forming a necklace."

—Caleb Cushing is to deliver an address at the centenary anniversary of the St. John's Masonic Lodge in Newburyport.

INCOMES FOR 1866.

LIST OF INCOME TAX-PAYERS.

THE AMOUNTS RETURNED.

Everybody's Balance Sheet.

Twenty-second Pennsylvania District.

Below will be found a complete list of the incomes returned in the Twenty-second District, to be found on file in the office of Henry A. Weaver, Esq., United States Assessor. Our reporters acknowledge their indebtedness to Mr. Weaver, and his skillful and accommodating deputies, Messrs. I. N. Coursin and Theo. F. Ansbutz, for facilities in transcribing the returns:

FINANCE AND TRADE.

MONDAY, August 6—P. M.

The local stock-market presents the same dull features which have recently characterized it, and we hear of few transactions. A call at Tradesmen's National Bank found a specie chaser at 110, at which price we learn it is in request. No other sales of bank stocks came under our notice. Ritchie oil is inquired for, and a small lot changed hands at fifteen cents. There is also inquiry for some other oil stocks, stimulated perhaps by the recent advance in oil. The prices offered are so trifling that holders prefer taking the chances themselves. We hear of no transactions in Columbia, nor of any lots of this stock pressing on the market.

—The New York quotations received this morning were: Gold, 1275; Eighty-ones, 106½; Five-twenties, 106½; ten-forties, 99½; Seven-thirties, 106½; Virginia Southern, 94½; Cleveland and Pittsburg, 94½; Fort Wayne, 74½; Erie, 84½; Western Union Telegraph, 35; Reading, 107½; Pittsburg, 75; Rock Island, 97½; Illinois, 124; United States, 73½; Gregory Gold, 19½; Quartz Hill, 4; Smith and Parmalee, 8½. The changes from Saturday are very slight, but prices are generally weaker. Reading is off decidedly in consequence, it is said, of a bear movement, and the absence of operators. The report of the investigating committee was favorable.

—The Chicago and North Western Company have recently completed a negotiation which will give them in about two millions of dollars of additional rolling stock to be paid for gradually in case, which is a new move on the part of railroad men, and a much better policy than issuing of bonds at a large discount. The friends of the road claim that the earnings of the fall to a million and a quarter a month.

—The great gem in California, last March, by the directors of the Mariposa Company, reported, by the last steamer. The report is known to be favorable. It tells us that upon the one hundred thousand tons of tailings on the grant, which will yield over fifteen dollars per ton at an expense of not more than three dollars per ton for working, which would give a fair profit on the working capital of dollars in gold.

—The Boston *Post* of Saturday, in noticing the Copper mining stock market, says: An unusual and unexpected feature of to-day's operations at the Board was a decided stroking up of Quincy from the dormant state in which it has been so long allowed to repose. A day or two since we made a passing allusion to the apparent inertia of this company, and much more might be said, without exhausting the subject. There is said has been for some time past a general impression that the interests of the stockholders have not been kept any too prominently in view by the management of the company, even if they have not indirectly contributed to depress its market value; however that may be, it is evident that at least the attention of the public is directed to the stock itself. It opened this morning at 19, an advance of ½ over yesterday morning's sales, and advanced to 19½ regular, and 19½ buyer 60. Copper Falls closed strong at 4¾, an advance of ¼. Franklin closed ½ better than yesterday morning. Hancock was active, and is exciting considerable talk in the corners of the street, it is said, however, a great diversity of opinion and much speculation in regard to its future course. It opened this morning at 29, an advance of 1½ from yesterday morning, but rapidly rose to 30, regular, closing strong. In the present aspect of the market, shorts must look for a reaction, Humboldt is tending upward, closed ¼ better. Fetherick also improved ¾. The movement in Rockland is daily strengthening. It advanced to day ½ on regular sales, sold up to 3¾, buyer 30. Superior is more firmly held, in accordance with the improved prospects of the Rockland.

The following were the closing quotations for the principal mining shares: Albany and Boston, 12 asked; Bay State, 13½@13¾; Concord, 9@10; Copper Falls, 4¾@4¾; Franklin, 27@28; Hancock, 30@30½; Humboldt, 3@3½; Isle Royal, 19½@19¾; Meshard, 2@2½; Minnesota, 9½ asked; Fetherick, 5@5½; Pewabic, 35½ asked; Phoenix, 8@8½; Pittsburg, 75 asked; Quincy, 19@19½; Rockland, 3 asked; Star Spangled Consolidated, 40@41; Dollar, 1½ asked; Winthrop, 1@1½.

PITTSBURGH GENERAL MARKET.

OFFICE OF THE DAILY COMMERCIAL,
MONDAY, August 6, 1866.

Business yesterday was quiet, and but few sales were made and far between. The first day of the week is generally noted for dullness and inactivity. The present case was no exception. From appearances it will be some days before we will see much returning activity in the jobbing market. Navigation being suspended to the lower ports, the land trade is in order for the fall trade. The present week, as a whole, was not a very favorable one for steamboats. We hope the next one will be one that will more than make up. Flour—The market continues steady with any quotable change. Buyers generally want a larger decline than holders are disposed to grant. The result was, as heavily stocked as the market is, that there was very little with a good demand for home purposes. Prices have undergone no change. Country meats meet with ready sale at good prices. Groceries were firm with a steady jobbing demand. Most dealers have but a moderate supply on hand. Butter—The market continues firm, with a good jobbing demand and very little for export. Dried fruit was firm, and sales were in ready sale at current prices. Apples—The supply large for this market. Prices were steady. Grain—The market was unsettled. Sales were made in a variety of prices. The supply exceeded the demand. The receipts are not large. Prices are governed by the receipts and quality. Rye was in good demand and sold at full market price. Oats—The market remains in an unsettled condition, with a little demand. Prices fluctuate while sales were unregulated. Wheat leads off some from 5 cents per bush. Barley has improved materially. Rye is also worth 5 cents per bush. Barley—No sales were reported for some days. Corn—The market remains in an unsettled condition. Sales in lots ranging. Oats were pretty good first half of the week, but fell off at last. Prices were more than held up to the last instant, thereby defeating some large contracts. Provisions—The sales and holdings of pork and lard were light. Bacon sides are in good demand, and bringing a fair price. Whisky—Sales at 24 cents per gallon.

CHICAGO MARKET.

Special Dispatch to Pittsburg Commercial.

CHICAGO, August 6, 1866.

Flour—Sold to a limited extent at $7@$10 for Wisconsin white winter extras, and $9@$9 25 for spring extras.

Wheat—Was unsettled, the demand better although the specialties sales were mostly in favor of $1 48 @1 50 in North side houses, and $1 47 @1 48 in South side houses for No. 1 spring, and $1 36@1 38 for No. 2 spring. At the close offers were free to sell at $1 50 in North Side houses.

Corn—Was easier at 90@90½c for No. 1 in store; 91 @92c for No. 1 delivered, closing at 90c for No. 1 in store. Canal corn was in fair demand at 92c afloat.

Oats—Were dull at 36@36½c for No. 1, and 33@33½c for No. 2.

Rye—Was in better demand, with sales at 84@86c for No. 1 in store, closing at 85@c for winter delivered.

Barley—Was dull and nominal.

Provisions—Were dull at $30@32 25 for mess pork. Lard was in better demand at 22c for kettle rendered. Cattle—Rules dull, and sales were confined to a few lots of butchers' cows, averaging 3@3½c at $5 25. Receipts, 150 head.

Hogs—Were moderately active at $9 65@10 75 for choice to heavy, closing at $10 for sales; were 750 head; receipts, 671 head.

By Associated Press.

CHICAGO, August 6.—Flour quiet. Wheat unsettled; closed at $1 50 cash and regular for No. 1 spring, and 92c for No. 2. Corn steady at 90@90c for No. 1 and 89@89c for No. 2. Oats dull at 36@37c for No. 1, and 33@33½c for No. 2. Rye firmer; sales at $2 25. Pork dull. Provisions dull. Freights dull; corn 7c to Buffalo. Receipts—Flour, 4,000 barrels; wheat, 12,000 bushels; corn, 7,000 bushels; oats, 3,000 bushels. Shipments—40 bbls flour; 5,000 bush wheat; 24,000 bush corn; 2,000 bush oats.

New York Finance and Trade

Gold Closed at 147½.

Special Dispatch to Western Press.

NEW YORK, August 6, 1866.

The Herald calls attention to the delegation of New York bankers and brokers which has visited Washington for the purpose of urging certain reforms in the financial policy of the Government, and views smartly the conduct of the Secretary of the Treasury. The *Tribune*, in alluding to the public debt statement, has the following remarks: "On one point secretary McCulloch will not permit us to understand him, why he should wish to keep on hand so large an amount of gold as $80,000,000 in the Treasury, with the interest on the public debt temporarily lost in the shape of premiums, and now when the heavy tax certain to come in, is doing it seems to us a grave mistake. We should not keep a dollar of it at least $10,000,000 more than he did up to the first instant, thereby defeating by some large contracts. Provisions—The sales and holdings of pork were light. Bacon sides are in good demand, and bringing a fair price. Whisky—Sales at 24 cents per gallon.

Cincinnati Provision Market.

August 6.—Mess Pork sold at $22, and is now a little firmer at that. Lard sold at 20c, and is not to be had at that. Bacon—Shoulders are very firm at 15c; sides, but 15c; clear sides at 17c; none, and clear sides at 18c. Hams are in good demand, and firm, 19@20c. Lard is not to be had hardly being that. Bacon Sides are selling, clear sides at 21c. Hams are ready as low as 20c.

PITTSBURGH OIL TRADE.

OFFICE OF THE DAILY COMMERCIAL,
TUESDAY, August 7, 1866.

The oil market remains very firm with a good demand for crude and refined for delivery. Buyers seem anxious to invest, but holders generally favored waiting or setting their figures ahead of what they would have accepted a week ago. The general rates yesterday with sales were fully up to 15c. We understand that the last figure was refused for a good round lot. We hear the lowest the holders will accept is considerably above 15c. There is no lack of crude on the market at this time, besides, it will take several thousand barrels to fill the contracts already entered into between parties. The latest from the oil regions represents a firm market with holders demanding extravagant prices. The several and destructive fires lately have decreased the stock on hand very materially. The receipts by the river since date last were 1,105 bbls, leaving on hand left at the Creek Oil Works during July, 4,324 bbls. The sales were as follows: 1,700 bbls bulk, deliverable first bulk water, 10c; 50 bbls do on the spot, 16c; and 100 bbls, refined in barrels, 37c. It is unnecessary to remark that these figures were considered low.

BUFFALO OIL—We continue to notice a firm market with a good demand. Buyers are willing to take hold. We note sales as follows: All for Philadelphia delivery, 1,250 bbls bonded, August, 44c; 500 barrels at 45c; all buyers' options sales 50 bbls November, 9, c, 466.

FREE OIL—Sales 100 bbls Champion, September, free on cars, 60c.
